

I believe that the FCC needs to limit the amount of Communications company's a business owns. If we allow a few large companies to own our airwaves it will diminish the free speech this country has come to enjoy and vows to protect. Monopolies in the communication industry are dangerous to democracy in the United States and I believe that the FCC should do all it can to protect the structures that support Democratic action in this country. IF the US continues to allow large businesses more control we will be working toward a creation of a Nationalistic country instead of a democracy. Stop allowing Monopolies in Communications.
